# Albert Einstein

Everything is relative. Speed, mass, space and time can all change. They are judged by the thoughts of the observer. Light has weight. Space has curves. We know all this, because of Albert Einstein.
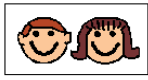

Albert Einstein was born in Germany on March 14, 1879. After he graduated from school in 1900, he lived in Switzerland. He got his doctorate degree in
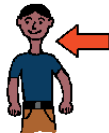

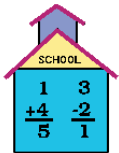

1905. Dr. Albert Einstein was a very smart man. He helped

us understand the laws of nature. Einstein was given the Nobel Prize

in 1921 for his accomplishments in science &

and

mathematics. He died in New Jersey in 1955.
